K B

Like a Pat on the Back

Has an old friend ever come up to you, given you a hearty slap on the back, and said: "Hello, Bill!"

How did you feel—pretty good?

Well, when the Workman takes his "pet" tool out of the kit, he scans it with a beaming eye, notices the K-B in the circle, and feels that same "something" that good friends feel for one another.

He knows his K & B will stick to him—it will do more—it helps him gain a livelihood. And that's why K & B Tools sell—they satisfy.

We make many kinds to suit your needs—Mr. Manufacturer, Mr. Jobber, or Mr. Dealer. Write for our catalog.
